

Virtual Choir

Recording Guidelines

What You Will Need

- Headphones
- 2 devices (cell phone, iPad or tablet, computer)
- Well-lit location with minimal background noise

Use headphones to listen to the music while recording your voice.

Set up to Record

- Connect your headphones to the device you will use to listen to your rehearsal audio recording (cell phone, tablet, computer)
- Use the other device (cell phone or tablet) to record the video of your singing. Either have another person hold the phone and record the video, or record it yourself by propping it up.
- Record horizontally
- Your full head and shoulders should be in the screen

Record yourself horizontally.

Record

- Listen to the either the audio or video **Recording track** for your vocal part www.selbyunited.ca
- Try to look up at the screen when recording as though there's an audience watching

- Press record on your device then press play on the device connected to your headphones. Sing through the entire song and press stop after the last notes of the accompaniment have been played.

Saving Your Video

- Save your video as an mp4 (not .mov as the file will be larger and more difficult to send)

- Email your video to pastor.mike.putnam@gmail.com
OR text/message your video to Pastor Mike at 613-539-9329
