### **Smile**

Hospital regulations require a wheelchair for patients being discharged. However, while working as a student nurse, I found one elderly gentleman--already dressed and sitting on the bed with a suitcase at his feet--who insisted he didn't need my help to leave the hospital. After a chat about rules being rules, he reluctantly let me wheel him to the elevator. On the way down I asked him if his wife was meeting him. "I don't know," he said. "She's still upstairs in the bathroom changing out of her hospital gown."
