A college student was in Philosophy class, where a class discussion about whether or not God exists was in progress.

The professor had the following logic: "Has anyone in this class seen God?" Nobody spoke.

"Has anyone in this class touched God?" Again, nobody spoke.

"Has anyone in this class ever heard God?"

When nobody spoke for the third time, he simply stated, "Then there is no God!"

One of the students did not like the sound of this, and asked for permission to speak. The professor granted it, and the student stood up.

"Has anyone in this class seen our professor's brain?" he asked.
